Product description

U-Hemo Cream is made up of skin-regenerating elements that are responsible for curing hemorrhoids and promoting improved blood circulation.

This cream is made up of a novel plant formula based on goldenrod, lemon and ruscus, which reduces swelling thanks to its anti-edema effect, soothes irritation thanks to citrus flavonoids and improves blood circulation by at least 31%.

All of this has been demonstrated under a Doppler laser flowmetry study.

This balsamic treatment relieves pain that occurs in the nerve endings due to bleeding hemorrhoids, fissures or rectal injuries. It has an analgesic and anti-inflammatory effect as it soothes the area, providing freshness and reducing hemorrhoids.

It also acts as a healing and skin regenerator.

Dose: apply a maximum of 2 times a day, preferably in the morning and at night.

When to apply: apply the balm, spreading it over the area to be treated with a gentle circular motion until it is completely absorbed.
