EAN	**8436566185066**

Product description

U-WOMAN is a dietary supplement designed to increase female libido.

It is a sexual desire enhancer composed of natural ingredients that promote hormonal balance and improve arousal by increasing vaginal lubrication and sensitivity in the intimate area.

It is also recommended for the menopausal stage since it improves estrogen levels. The natural components that make up U-Libido Pills help improve blood circulation, producing relaxation in the intimate area that increases lubrication and relaxation, thus causing an increase in libido and improving possible problems of lack of sexual desire.

This makes sexual relations much more pleasurable thanks to its aphrodisiac and enhancing effect.

It also reduces vaginal dryness and increases sexual energy, achieving, unlike other products, a natural improvement in female libido. It also improves hormonal levels that are out of balance due to the arrival of menopause.

Dosage: one pill should be taken daily. U-Libido Pills is a nutritional supplement that does not improve its effects when taken in larger quantities. Otherwise, it can backfire.

When to take: It is recommended to take U-Libido Pills either in the morning or at night.
