What should I keep in mind when using anal toys?

This Addicted toys product enriches both sexual games as a couple and extensive solo games. For smooth enjoyment with anal toys you should definitely use lubricant, as the anus itself cannot lubricate itself naturally, which is important for pleasant pleasure. Ideally, use one of the AQUA lubricants, which are combined with the materials and are available in different sizes depending on your sexual activity.

In order for you to enjoy the anal toy for as long as possible, we advise you to clean and disinfect it with a toy cleaner before and after each use. Waterfeel Spray Disinfectant composition adapts to soft silicone and is gentle on the material so that the surface remains smooth and flexible.
