Producer code	FETISHID-242873
EAN	8435565956936

Product description

The Addicted Toys Model 1 Anal Plug with Ring is an option designed for those seeking a controlled, deep and safe anal stimulation experience, thanks to its combination of plug and ring. This innovative design provides a sensation of fullness while maintaining additional control over stimulation of the testicles, improving comfort and intensity during use.

Features of the Anal Plug with Ring:

- Total height: 195 mm, providing a suitable size for those looking for deeper and more controlled stimulation.
- Height outside the ring: 150 mm, allowing for comfortable insertion with a sturdy base for a perfect fit.
- Insertable length: 70 mm, allowing for satisfactory penetration, without being excessively long.
- Bottom thickness: 25 mm, offering a light but pleasant feeling of fullness.
- Inner thickness: 30 mm, providing gradual expansion for a progressive and controlled experience.
- Top thickness: 24 mm, ideal for those looking for a deep but manageable stimulation sensation.

The ring design helps keep the plug in place during use, improving stability and preventing the plug from slipping. Additionally, the ring provides extra pressure on the testicles, which can increase the feeling of pleasure and control during anal practice.

Material and Design:

Made from high-quality medical silicone, this plug is soft to the touch, flexible and safe for the body. Silicone is hypoallergenic, easy to clean, and offers a comfortable and pleasurable user experience.

Use and Pleasure:

This plug with ring is ideal for those who want to explore anal stimulation with a design that adds an extra level of pressure on the testicles, providing a unique experience of control and expansion. Its shape and size make it suitable for both beginners and more experienced users, offering deep and controlled pleasure.

Recommendations:

It is recommended to use water-based lubricant for a more comfortable and smooth insertion. After each use, it is important to properly clean the product to maintain good hygiene and ensure its durability.
