Producer code	**FETISHID-227618**
EAN	**8435565913533**

Product description

Within the entire range of ADDICTED TOYS products we want to offer you the possibility of exploring sexual play in exciting ways and sensual experiences.

If you've never tried anal play, the ADDICTED TOYS Annal massager and cockring is just what you need to explore the wonderful world of anal stimulation.

The Annal massager and cockring inserted in the anus and the ring around the penis, you will get harder erections than ever! The super stretchy silicone ring puts the pressure on energy drops, maintaining firm erections that last and last! The smooth, round head makes entry and retrieval a breeze, while the slim, tapered shaft ensures the plug will stay in place. Place the ring around the base of the penis and testicles and start enjoying long-lasting pleasure!

Made of super soft, skin-friendly, soft-touch, and extremely hygienic medical grade silicone

- Ideal for beginners and for trying anal experiences
- Plug measurements; 27 x 3 cm (Look at the image to detail measurements)
- Powerful motor
- Works with 1 AAA battery (Not Included)
- Intense vibration
- Phalatos free
- Waterproof
- Flexible and ergonomic

* To achieve an optimal experience and to be able to enjoy it in a pleasant way and without feeling pain, Addicted toys recommends the use of Black Hole brand lubricants

What should I keep in mind when using anal toys?

This product from Addicted toys enriches both sexual games as a couple and extensive solo games. For a smooth enjoyment with anal toys you should definitely use lubricant, since the anus itself cannot lubricate itself naturally, which is important for a pleasant pleasure. The ideal would be to use one of the AQUA lubricants, which are combined with the materials and are available in different sizes depending on your sexual activity.

In order for you to enjoy the anal toy for as long as possible, we advise you to clean and disinfect it with a toy cleaner before and after each use. The Waterfeel Spray Disinfectant composition adapts to soft silicone and is gentle on the material so that the surface remains smooth and flexible.
