Product description

DISCOVER TWISTER

With three **Twister** motors you will delight yourself. with a complete 3D vaginal experience. A motor controls the 3D undulations with which you will feel wonderful rotations and sensations. The second is a rabbit vibration, with a long and flexible rabbit the vibrations are specially designed for clitoral stimulation. Finally, there is the vaginal vibration, a vibration that spreads throughout the entire Twister dildo and that will make you feel uncomfortable. vibrate like never before.

You could say that it is a silent toy, although the rotation is always a little louder, when you introduce **Twister** into your vagina you will only hear your moans. **Twister** has a soft, silky, fine and curved tip to stimulate the G-spot. In addition, it is submersible thanks to the quality silicone with which it is made. manufactured.

One of the advantages of **Twister** and what makes you fall in love are the almost infinite functions it has. It has twenty vibration modes, twenty rabbit vibration modes and twenty rotation modes. Can you imagine? With the possibilities that the vibrator offers you will not be able to stop.

HOW TO USE IT?

Combining three types of vaginal stimulation, **Twister** offers a 3D experience, as well as Prepare the water-based lubricant and apply it to the toy and your vagina.

To turn on the vaginal vibrator, press the On/Off button for 3 seconds and it will turn on. an led. At that moment the three motors will respond and you will be able to change the mode of the vaginal vibrator by pressing the same button. To turn on the rabbit vibrator, press the button that looks like a tulip with a click if the LED is on it will activate. and with each click it will change mode, to turn off the rabbit press it for three seconds.

And the most important part of the 3D vaginal experience, to turn on the rotation, press the rotation button and the rotation will begin. It will rotate, with more clicks you will change modes. To turn off the rotary motor, hold the same button for three seconds. Are you ready to vibrate?
