Product description

The **anal shower**, in its different sizes, is an accessory designed for intimate hygiene and preparation before anal activity. This device has become an essential tool for those seeking a deep and comfortable clean before engaging in anal sexual activities, providing a feeling of freshness and comfort.

These anal douches are made from body-safe materials to ensure safety and hygiene. They come in different sizes to suit the individual needs and preferences of users.

The basic design of an anal douche consists of a pump connected to a thin, elongated nozzle. The bulb is filled with water before application and by pressing or squeezing the bulb, water flows through the nozzle to gently cleanse the anal area. The tip of the mouthpiece is usually ergonomically shaped and rounded to facilitate insertion and minimize discomfort.

The variety of sizes available allows users to choose the water capacity that best suits their needs. The smaller models are ideal for those who are new to anal cleaning, while the larger models are preferred by those who want a more thorough and thorough clean.

The anal douche can be used with warm water for gentle cleaning or with specific solutions for a more complete cleaning.

It is essential to follow the manufacturers instructions for safe and effective use. Proper cleaning of the anal douche before and after each use is crucial to maintain hygiene and prevent possible infections. Additionally, the use of water-based lubricants can facilitate insertion and improve comfort during application.

FEATURES:

- Color: Black
