Product description

Anal Pleasure, Metal Anal Fluffy Twist Plug It is a metal anal plug with various sizes and a spiral shape designed for anal exploration, offering a sensual and pleasurable experience.

Made from body-safe metals, this type of plug provides a feeling of weight and firmness, which can increase stimulation and satisfaction during use.

The spiral shape of the butt plug not only adds an intriguing visual component, but also results in a distinct tactile experience during insertion and removal. The coil can provide additional stimulation while facilitating gradual adaptation to the desired size thanks to its tapered and progressive design.

The finish of the plug is what makes this toy especially striking: a black synthetic fur pompom, which adds a playful and aesthetic touch to the experience. This visual detail not only adds a playful element to the toy, but also provides a soft, tactile texture, adding another layer of sensory stimulation.

It is important to note that, as it is a metal toy, the plug can benefit from the ability to retain and conduct heat. By immersing it in hot water or cooling it in the refrigerator before use, additional thermal sensations can be experienced that can increase enjoyment.

As with all sex toys, the use of water-based lubricants is recommended to facilitate insertion and improve comfort. Proper cleaning before and after each use is essential to maintain the hygiene of the toy and prevent possible irritation or infections.
