Product description

Feels like a real bargain for anal or vaginal satisfaction. Silky touch finished with suction cup base for hands-free pleasures. Recommendation: use with lubricant and wash with soap Neutral before and after use.

Realistic vibrating dildos represent an exceptional fusion between ergonomic design, detailed textures and the additional stimulation provided by vibration. These sex toys are designed to mimic the look and feel of a real penis, offering a more authentic and pleasurable experience.

The base of the realistic dildos is equipped with a strong suction cup that allows the toy to be attached to flat surfaces, such as walls or floors, for greater versatility in exploring positions and scenarios. This adds an extra layer of creative, hands-on play.

It is essential to highlight that these toys are designed to be safe and easy to clean. Many are waterproof, making hygiene and maintenance easy. By following the manufacturers instructions, users can ensure safe and long-lasting use.
