Product description

Designed to strengthen, stimulate and tone the pelvic muscles, the **U-TONE balls** have an oval shape for easy insertion and removal. Enjoy them of a pleasant and healthy sexual life.

Chinese balls, also known as geisha balls, are devices designed to strengthen the pelvic floor muscles and provide sexual pleasure. These balls are usually made of body-safe materials, such as silicone, and are designed in the shape of small spheres that are inserted into the vagina.

The basic structure of Chinese balls consists of two spheres connected by a cord. Each sphere can contain a small weight or internal ball that moves around with the movement of the body. This design provides a subtle sensation of vibration and stimulation with each movement, which can increase body awareness and, in some cases, cause pleasurable sensations.

The main purpose of Chinese balls is to strengthen the pelvic floor muscles, which are essential for sexual and reproductive health. Regular use of these balls can help improve vaginal elasticity, increase blood circulation in the pelvic area and prevent or alleviate problems such as urinary incontinence. In addition to the physical benefits, many people find that using Chinese balls can increase sexual arousal and improve intimacy with a partner.

It is important to note that before beginning any exercise regimen with Chinese balls, you should consult with a health professional to ensure that they are suitable for the person in question. Additionally, proper cleaning of Chinese balls before and after each use is essential to prevent infections or other health problems.

Clean before and after use with neutral soap. For adults only.
