The vibrating Ass Thruster is the most advanced wireless anal vibrator ever designed. Apparently when you see it, it looks like it's a Bluetooth speaker, but once you take off the cover, you'll see an incredible vibrator with a suction cup, a heat effect, and that also has a whipping function. With 7 vibration and 7 stroke modes to choose from, the possibilities are limitless.

The Ass Thruster incorporates a powerful vibrating bullet at the tip, the shake function is powered by a powerful rechargeable Japanese motor, and its heat function makes it reach up to 40 degrees with just the push of a button. With separate buttons for vibration, shake and heat, you'll be in complete control of the fun. Its suction cup can also be removed in case you want to use it with your hands or, on the contrary, live a wild experience without them, since it will adhere strongly to almost any flat surface.

It is also rechargeable and you can use it for two hours with just an hour and a half of charging.

Cleaning after use with toy cleaner and warm water is recommended. The use of lubricant is recommended for an unmatched experience
