Our best-selling Ass-Gasm Cockring is now available in a powerful rechargeable version! Enjoy the most explosive ejaculations ever with the Ass-Gasm Rechargeable Pro. Made entirely from our silky-smooth Elite Silicone™, this wearable plug doubles as a performance-enhancing cockring, allowing the wearer to prolong ejaculation and extend the fun while enjoying incredible prostate stimulation.

The key to anal play is to take it slow! Attempting anal penetration before you are properly aroused can be unpleasant, so allow yourself to relax in order to enjoy the experience. Finger play is a great way to relax the anus, so use an included finger sleeve to massage the area. The anus and rectum do not have a natural lubricating system like the vagina, so use plenty of the included Moist® Anal Lube to reduce friction and increase pleasure.

With the Rechargeable Ass-Gasm Pro in your ass and the ring wrapped snug around your cock, you'll stay harder and stronger than ever before! The super-stretchy silicone cockring puts the squeeze on performance letdowns, maintaining firm erections that last and last! The round, smooth head makes entry and retrieval a snap, while the thin, tapered shaft ensures the plug will stay in place between your cheeks when the action heats up. Place the ring around the base of your cock and balls and wear it all day for long-lasting fun and huge, powerful ejaculations! With the push of a button, the powerful Japanese motor delivers incredible vibrations right where you want them most. Try it in the shower or spa to turn bath time into pleasure time!

- Our ultra-hygienic Elite Silicone™ is phthalate-free, hypoallergenic, and super flexible. Cleanup is a snap after the fun with the included Refresh® Toy Cleaner and warm water.
- With the Rechargeable Ass-Gasm Pro, you'll never have to worry about batteries again! Just plug the USB cord into the pin jack and you'll enjoy 2 hours of fun time with every 1.5 hours of charging time.
- 10 FUNCTIONS: simple one-button control allows you to cycle through the vibration functions.
