Functions of a WATCHME watch

In a WATCHME watch there are some outstanding functions that we will detail:

- Activate/Deactivate vibration.
- Modify vibration modes
- Modify the intensities in each vibration mode.

But are Anne's desire Toys waterproof?

Anne's desire, of course, is waterproof and will be your perfect companion both in a romantic hot tub and under the comfortable sheets at home. The underwater vibrations of this fun companion are perceived by many couples as particularly intense.

ANNE'S DESIRE Curve is elegance and comfort . Its curved design allows it to adapt to the shapes of your body both outside and inside, making AD CURVE a versatile toy ready to satisfy any desire. But that's not all, it is also specifically designed to find and stimulate the G-spot thanks to its bulbous shape and length.

Do you want to stimulate your clitoris? Go ahead, with AD CURVE you can. Its vibration can focus on your clitoris. A trick: Use its curvilinear design to stimulate different areas, yours or your partner's.

This vibrator is made of flexible medical silicone and can be placed comfortably and softly on the skin.
