Product description

ENJOY UNLIMITED BLOWJOB EXPERIENCES POWERED BY ARTIFICIAL INTELLIGENCE

The new Autoblow AI+ will surprise and delight you with the most personalized machine-given blowjob in the world. The result of years of research, a team of scientists used machine learning to analyze 1000 hours of blowjob videos and then replicated the real-life blowjob movements into Autoblow experiences. Simply select from any of the 10 built in experiences or connect to the internet to download dozens of additional blowjobs.

This new Autoblow AI+ edition has a first ever adjustable penis gripper that allows you to dial in the tightness for your unique anatomy. This new edition also delivers the slower speeds our users asked for which allows for more sensual sensations. Finally, the new AI+ is whisper quiet so that you can enjoy yourself privately in locations that werent possible with the previous model.

If you are an advanced user, connect to our 100% private web-app no download required and access the blowjob library, play with a long distance partner, or check out how cool it is to control your BJ using 6 built in voice commands!
