Product description

The new BASECOCK vibrating dildos are the most realistic American-made vibrating penises in the world!

Every vein, every shaft, and every head is handcrafted with exquisite attention to detail to give you the most realistic experience imagined. The flexible shafts allow you to bend the penis to fit the contours of your body, while the powerful motor moves you further away.

The removable suction cup bases stick to almost any flat surface and mean you can use the realistic vibrator on any smooth wall base.

In addition, you can remove the realistic sleeve and use it as a penis extender.

BASECOCK provides a realistic experience with a multitude of functions, just let yourself go, dream, imagine and enjoy!!

- Realistic touch
- Adjustable Speed
- Valid as a penis extender
- Phalatos free
- Clamping base
- Body safe material
- Silky and durable TPE material.
- Measures; 20x4cm

It uses two AA batteries that you can find in the Batteries section.

The TPE material stands out for its silky matte surface with an extraordinary adaptation to the body. Sex toys are easy to clean and remain hygienic for a long time. The flexible material glides wonderfully and quickly adapts to body temperature. The vibrator cleans quickly and easily with a little soap and warm water. For thorough hygiene, spray it afterwards with Waterfeel ToyCleaner disinfectant cleaner for sex toys specifically designed for this purpose.
