Product description

The Hydromax6 is designed for a user whose penis is 4.6" (10-15cm) when erect.
Designed to be used in the bath or shower as part of a daily routine (up to a maximum of 15 minutes in 24 hours, it utilises the incredible power of water to safely increase the length and girth of the penis.

All the benefits of the Bathmate, plus:

- 35% more powerful due to newly designed bellows pump system.
- Soft sealing full support comfort insert reduces pressure and gives greater comfort around the base of the penis and testicle region.
- Super flow latch valve system allows for single handed filling in shower.
- Metric and imperial guidance scale with improved viewing area.
- Upper and lower texturing on the tube for better grip and control.
- Internal bellows size increased and the number of convolutes decreased allowing even girth expansion.
