Product description

Due to the success of the bathmate pressure pumps we have developed this bathmate x30wide. Many customers have requested that they have reached their desired size with the Hercules pump or with the X30, however, they want to continue growing in girth and not length.

The HYDROMAX 7 WIDE BOY (X30 WIDE BOY) is developed to grow the width of the penis because it uses the pressure that the penis needs for its development.

- To obtain a perfect result you must use the correct pump according to your objective.

We always advise clients to buy our small pumps and increase the size based on the results.

Pump Guide

Penis Pump Guide

Manual pumps offer more control. Automatic pumps are easier but less adjustable. Hydro pumps (Bathmate) use water for even pressure.

Start with low pressure and short sessions. Increase gradually over weeks. Never sleep with a pump on.
