Price	**56.31 £**
Number	**70145458**
Producer code	**FETISHID-227829**
EAN	**8718801014868**

Product description

The Bye Bra Sculpting Silicone Lifts are here to give you the ultimate security, comfort and cleavage with the help of an additional 24 cm long transparent strap attached to the silicone cups. The supportive transparent strap will provide lifting, while the adhesive cups will securely hold the bra in place and create cleavage. The bye Bra Sculpting Silicone Lifts go up to size G and so also support the larger cupsizes. The Sculpting Silicone Lifts are made of 100% silicone.

Instructions:

Clear your skin of any oil and creams. Once done, dry your skin with a soft towel. Remove the protective film from the cup and the transparent strap. Flip the cup outward while holding the transparent tape by its end with one hand. Position the cup at the desired breast angle and gently press the cup edges with your fingertips. Then pull the transparent strap in an upward direction over your shoulder. When the desired position is achieved, stick the strap to the skin. Repeat the same procedure with the other breast. Press both cups firmly on the breasts for an optimal adhesive effect.

Hand- wash the Bye Bra Sculpting Silicone LIfts with warm water, once fully dry, cover the lifts with the protective films

- Reusable
- Plunge
- up to G-cup
- Lift

Brand characteristics

Brand characteristics: selected BYE BRA products available at Sforne with discreet delivery and clear product information.

Application Guide

Specialty Bra Guide

Clean and dry skin before applying adhesive bras. Peel off slowly after wear. Store on original plastic to maintain stickiness.

For strapless bras, ensure band fits snugly – it should stay up without straps.
