Product description

Bye Bra redefines the use of adhesive breast lift for wearing deep V neck clothes and cross strap clothes through an innovative, patent-pending tape: the Perfect Cleavage tape.

The Perfect Cleavage tape lifts the breasts from the side, towards the center of the chest; and gives a boosted cleavage. The Bye Bra Perfect Cleavage tape with silk nipple covers is the perfect solution if you want to have a bare chest without a bra, while the breast still needs a lift.

The Perfect Cleavage tape consists of four tapes; two tapes per breasts. The first tape, shaped like an ‘L’, lifts the breast and turns it inwards to create cleavage; while the second tape, shaped like an inverted ‘T’, adds the final support.

Because the tape is applied in four steps, it is easy to apply and you can lift the bra without touching the sticky adhesive. The Bye Bra tapes are made of a very thin and flexible self-adhesive foil, which is produced by 3M™.

- It includes Silk nipple covers
- Cup A-F

Application Guide

Specialty Bra Guide

Clean and dry skin before applying adhesive bras. Peel off slowly after wear. Store on original plastic to maintain stickiness.

For strapless bras, ensure band fits snugly – it should stay up without straps.
