Product description

Bye Bra proposes the new generation of open back straps that adapt to all 2 or 3 hook bras.

Backless straps are bindings that cross at the back and close at the front. They allow women to have the comfort of a bra without ruining the effect of a backless, wedding or party dress. Various lingerie brands offer different types of hooks, which do not always adapt to bare back straps.

Bye Bra's backless straps have flexible ends, ensuring your customers will fit all their bras. The very soft material used in production ensures a comfortable touch, while the flexible tips make it easy to attach to any bra.

- Flexible limbs adaptable to all sizes.
- Two extenders per box in Black
- They exist for bras with 2 and 3 hooks.
- Available in various colors.
- Adjustable slider for maximum comfort.
- Discreet fixation that does not come off.

Application Guide

Specialty Bra Guide

Clean and dry skin before applying adhesive bras. Peel off slowly after wear. Store on original plastic to maintain stickiness.

For strapless bras, ensure band fits snugly – it should stay up without straps.
