MATERIAL AND CARE

COCKSIL Material (Dual Density Silicone and Dense Silicone) is skin-friendly, non-porous and therefore highly hygienic. The soft and flexible texture ensures that the silicone material is nice and easy to slide on. It quickly absorbs and stores your body heat. For the use of lubricants, we recommend a Waterfeel water-based lubricant. This is gentle on the material and ensures that it maintains the texture for a long time. After using it, clean it with the waterfeel toy cleaner or neutral ph soap and warm water for a perfect cleaning.
