Product description

Experience authentic and limitless pleasure with the **Herta** Realistic Female Masturbator Torso, a masturbator designed for those seeking intense sensations and unparalleled realism. Weighing 497 g, this torso offers more natural and immersive solo encounters.

Herta is made of high-quality TPR, a body-safe material that is soft to the touch and easy to clean, ensuring hygienic use at all times. Thanks to the exclusive Sort Skin technology, its surface surprisingly reproduces the texture of human skin, providing natural elasticity and a hyper-realistic sensation upon contact. Its design features a vaginal opening, the entrance carefully sculpted to offer unparalleled physiological authenticity, realistically replicating the sensations of the female body.

In addition, its internally weighted core ensures greater stability during use, preventing uncomfortable movement and guaranteeing a more immersive and pleasurable experience. This masturbator is also waterproof, allowing you to enjoy it in different environments and making it easy to clean afterward. The **Herta** masturbator is much more than a simple intimate accessory: it is a tool designed to provide pleasure in the most realistic and satisfying way possible, becoming the ideal companion for unique moments of intimacy.
