Product description

Beyond reality!
Immerse yourself in a new dimension with **CREAMY GLIDE**, a water-based intimate gel with impressive sensations. Its whitish appearance perfectly reproduces the look of semen for lovers of realism. Its fluid, ultra-slippery texture creates silky, milky threads between your bodies, an excellent way to explore new intimate games through a unique sensory experience.

It is the ideal product for photo or video shoots (cameras) and the essential accessory for ejaculatory dildos, allowing you to recreate realistic ejaculations with Creamy Glide's fake semen. Inspired by the texture of Nuru (an ultra-slippery Japanese erotic massage gel), it works as an intimate gel (anal or vaginal) and is perfect for passionate body-to-body massages. To make your Creamy Glide even more slippery and fluid, mix it with an equal amount of warm water.

Creamy Glide fake cum comes in 3 sizes: 75 ml, 150 ml, or 250 ml. Choose according to your needs or desires. Fake semen, beyond from reality!
