MATERIAL AND CARE

The dildo is made of liquid medical silicone. Liquid medical silicone is skin-friendly and quickly stores body heat and makes your experience particularly sensual. However, it is important that you make sure to use a water-based lubricant in conjunction with each silicone toy, otherwise the toy could be damaged or deformed. When cleaning the toy, you will get the best results with an antibacterial toy cleaner. THE CYBERSILICOK BRAND

As the name suggests, CYBERSILICOCK toys are made of silicone. Natural dildos with a realistic design are very suitable for beginners or advanced people in sexual games. Cybersilicock was originally born as a technological brand of remote control vibrators with incredible functions. However, many customers requested vibration-free dildos with the same material as cybersilicock. Now it is a reality and cybersilicock dildos have arrived to continue surprising
