Producer code	**FETISHID-244576**

Product description

Durex Invisible XL Condoms, Ultra Thin Designed to Maximize Sensations, 10 XL Condoms

DESIGNED TO FEEL IT ALL

- Light as a whisper.
- It's barely there.
- It almost feels like you're not wearing it, and it feels that way too.

Durex Invisible XL condoms are designed to be ultra thin to maximize sensitivity, while still ensuring a high level of safety and protection. They have a large circumference, a nominal width of 57 mm, and are extra lubricated with silicone. These condoms are transparent, made of natural rubber latex and are straight, smooth, and have a reservoir. Everyone is different, but the right size should always feel comfortable and secure. To help you put it on right the first time, the Durex logo on the pouch indicates the underside of the condom. The way we make Durex condoms makes them smell better.

100% of our condoms are electronically tested. In addition, each batch undergoes five quality tests. Dermatologically tested. Over 90 years of real sex. We stand for real sex that feels good and satisfies. That's why, for over 90 years, millions of people around the world have trusted us every day (and night). They've made us the world's number 1 condom brand*. So, no matter what type of sex you want to have today – be prepared with the right protection.

CONTRAINDICATIONS

This condom is Made from natural rubber latex, which could cause allergic reactions, including anaphylactic shock, if the user is allergic to latex.

PRECAUTIONS

Try to use only lubricants that are recommended for use with condoms. For anal sex, use additional lubrication on the outside of the condom (do not use Durex Freshness or Lovers Connect). Remember that no contraceptive method works 100% against pregnancy, HIV, or sexually transmitted infections. Condoms can present a choking hazard. Keep out of reach of children. Stop using if you experience discomfort or irritation when using the condom. Use a condom only once. Reusing it may increase the risk of breakage and infection. If you use a condom for oral sex first, you should use a new condom for any subsequent sexual activity. Consult your doctor or pharmacist if you are not sure if you are allergic to latex, if irritation or discomfort persists after use, or if you are using topical medications on your penis or vagina.
