Product description

The Perfect Connection condoms are designed with thicker and extra-lubrication based on silicone, providing greater safety and more durable lubrication.

- Perfect Connection condoms are the most lubricated in the Durex range, with a silicone base.
- Suitable for anal, oral and vaginal sex.
- With Straight Shape technology, soft and smooth.
- Designed to suit you, for a more comfortable and pleasurable experience.
- Durex condoms not only meet international quality standards, but exceed them.

The physiology of the anal area, which there is not enough natural lubrication, can hinder penetration and lead to the appearance of discomfort and / or pain when anal sex is practiced (2). In addition, anal sex has been shown to be a practice with a higher risk of STD transmission, as it involves a higher level of friction (3). Durex Perfect Connection condoms have been designed with more thickness and extra-lubrication based on silicone, for those who seek safety (1) without neglecting pleasure. The most lubricated of the Durex range for uninterrupted sex.
