### Product description

Aura is our go-to probe for electro sex toy beginners. Its small size and simple shape makes insertion and wear easy, whether you want to stimulate vaginally or anally. The anchored base provides safety during anal play while the length is proportioned to directly stimulate your G-spot or prostate.

Measuring 7,6 cm insertable x 8,4 cm in girth, the size is ideal for first-time experiences. Aura reaches your most sensitive internal pleasure zones without compromising comfort during beginner's play.

Simply connect Aura's bi-polar contacts to your stimulator, apply a little water-based lube and lose yourself to the erotic thrills of electrosex.
