Product description

If you love the feel of metal cock rings but crave a more tailored fit for your size and shape then the ElectroStim Metallic Adjustable E-Stim Cock Rings could be your perfect match. Made from a non-stretch metallic coil, they offer excellent conductivity and complete comfort during wear. Slip the loops around any part of your shaft to intensify the sexual sensations you feel during masturbation, foreplay, oral sex and sex.

Adjusting up to 1.75 inches in diameter, this duo of uni-polar adjustable cock rings will fit most men. Wear one and share sensation with a partner, or try out both for hands-free stimulation along your full length. For the best-possible experience we recommend that you lubricate our Metallic ElectroLoops with our electro-conductive gel.

Please note, you will require an electro stimulator to power this item.
