- Silicone Noir Aura Electrode (7.6cm x 8.38cm)
- 2 Electraloops penis rings (adjustable up to 7 cm in diameter)
- 60 ml tube of conductive gel
- Connection cable (2mm pin connection)
- USB charging cable

Storage Bag All ElectraStim toys are designed with the sole intention of providing the user with a satisfying sexual experience.

Our high-quality electric sex toys are designed to give you a unique sexual experience that complements a variety of erotic tastes. We use 2mm universal pin connections for all of our stimulation units and electrodes, so when you buy ElectraStim products, you know you can expand your collection without buying new cables or components every time. You can also adapt any of our stimulators or toys to use with any other sex toys you already have from other manufacturers.

All of our products are finished to a high standard to give you years of use with proper care. As you would expect from any reputable manufacturer and supplier, all of our non-consumable items are backed by a 12-month warranty.
