Price	**73.89 £**
Number	**79446736**
Producer code	**FETISHID-243689**
EAN	**609224032103**

Product description

CNC Machined Aluminium adjustment choke- available in Red, Silver or Gold anodised finish as well as our 20th Anniversary Camouflage version. Made from solid marine grade aluminium billet- The anodized finish protects the surface and insulates the choke so the rubber loop receives all the stimulation power. Thick conductive silicone- distributes the electrical stimulation more evenly than our standard loops
Two unipolar loops supplied in each pack.

Expand your pleasure with ElectraStim Prestige ElectraLoops Adjustable Cock Rings. Building on our hugely popular rubber cock loops design, Prestige ElectraLoops are made from a thick (6.5mm) rubber that transfers the delicious electro sensations more evenly for increased intensity. The rubber also hugs your cock tightly for a harder, longer lasting erection whether you’re enjoying an extended masturbation session or having sex with a partner.

Designed for the connoisseur who appreciates a touch of flair, we’ve added a solid CNC machined aluminium adjustment choke that’s available in three stunning anodized metallic finishes- our first flirtation with color!

2 loops per pack in your chosen color.

How to wear

Simply slide the adjustment end through the choke to create your perfect fit- the friction of the rubber against the metal will prevent slipping or loosening.

With two in each pack, you can start playing straight away and ElectraStim Prestige ElectraLoops are unipolar toys so can be combined with any of our other electrodes (including pads, probes and more) to create a circuit and let you enjoy the electrical stimulation. Try one loop at the base of your penis and another further up your shaft for a mind blowing experience or even an Hands Free Orgasm as the electrical current pulsates and massages your cock more deeply than you ever could.

Please note that you will require stimulator unit to power these loops (sold separately).

ElectraStim Prestige ElectraLoops can be worn in a variety of different ways. Two of the most popular configurations are shown below; both loops worn on the shaft or one on the shaft and one around the scrotum.

As these rubber adjustable e-stim cock rings are unipolar you can also combine a single loop with another attachment (i.e. pads or a butt plug) to enjoy a variety of sensations. The only limit is your imagination!

Specifications:

- Max Diameter: 60mm / 2.35 inches
- Max Circumference: 188mm / 7.4 inches
- Connection: 2mm
- Weight: 36g

- Materials: 6.5mm thick conductive rubber loop, CNC machined anodized aluminium billet adjustment choke and end stopper
