ELECTRASTIM - PRESTIGE ELECTROMAGNETIC METAL PENIS RING 50 MM

Price	**86.44 £**
Number	**79446753**
Producer code	**FETISHID-243688**
EAN	**609224031847**

Product description

Beautifully crafted from heavyweight 316 surgical stainless steel, our Prestige Metal Electro Cock Rings represent the very best in electro sex toy craft.

Available in five different sizes for the perfect fit, they can be worn anywhere along the shaft to bring that unmistakable thrill of electro sex to masturbation, foreplay and penetrative sex. Each ring features a series of holes that trap electro-conductive gel for improved conductivity that’s longer lasting than with our solid metal rings. A single uni-polar input allows you to use any other uni-polar electrode alongside a single cock ring, or why not try wearing a ring at the base of your shaft and another below the frenulum for full-length sensations?

One ring is included in each pack. You will need to connect Prestige to an ElectraStim stimulator alongside a second uni-polar electrode (sold separately) to feel the sensations described.

Specifications:

BDSM Safety

Safety First in BDSM

Consent, communication, and safety are paramount. Our products include safety features like quick-release buckles. Never leave a restrained person unattended.

Start slow, check in often, and always have safety scissors nearby for emergency release.
