ELECTRASTIM - SILICONE BLACK ROCKER BUTT PLUG LARGE

Price	78.50 €
Number	70141879
Producer code	FETISHID-235602
EAN	609224031762

Product description

Designed for fans of hands-free play, the unique curved base of the Silicone Noir Rockers feature embedded 2mm inputs that allow you to sit on, rock and grind against the e-stim butt plug during wear.

Crated from 100% platinum-cured black silicone, the tapered shape assists insertion and the subtle ridged texture enhances sensation during wear. Seamless bi-polar contacts in the shaft transmit sensation from an ElectraStim stimulator (sold separately) making your anal pleasure zones tingle and the muscles pleasurably throb in time with the stimulation pattern.

Available in small, medium and large sizes, the Rocker Butt Plugs are perfect for intermediate users who crave a thicker, fuller and more dynamic experience during their anal electro play.

The ElectraStim Silicone Noir Rocker electro butt plugs have a unique base that allows the cables to enter at 90 degrees allowing play whilst sitting and rocking. The groove textured shaft adds to the excitement as you wind up the power on your stimulator.

Electrode Type:

Bi-polar for internal stimulation - takes 2x 2mm pin connectors. 1x Silicone Noir Rocker Medium electrode is included in each pack. You will need to connect Rocker to an ElectraStim stimulator to feel the sensations described. For low to medium power levels our ElectraStim Flick stimulators are well suited to Rocker Medium. If you demand high power levels then we recommend our ElectraStim SensaVox.

Dimensions:

- 5 inches insertable length x 6.2 inches circumference at the widest point (2 inches diameter)
- 130 mm insertable length x 160 mm circumference at the widest point (50 mm diameter)

Materials:

Made from 100% platinum-cured, medical-grade silicone, the designs are free from phthalates and body safe.
