ELECTRASTIM - TADPOLE ELECTRODE SOFT TAIL ELECTRO EGG

Price	**149.07 £**
Number	**79446739**
Producer code	**FETISHID-243692**
EAN	**609224031120**

Product description

Electro fans of all persuasions and desires will love the erotic potential of this curvy bi-polar electrode. Suitable for both vaginal and anal use, the flexible form provides targeted stimulation that makes Tadpole an expert G-spot massager and prostate stimulator.

Experience the unique sensations of electrosex contractions as your pelvic floor responds to the tingling stimulation, making your pelvic floor clench and relax in time with the stimulation beat. A flexible cord allows you to wear Tadpole as you move around, making it a great substitute for jiggle balls and vibrating love eggs.

With this bi-polar probe you don’t need to connect any further electrodes to complete a circuit. Apply some lubricant to assist insertion and use the flexible tail to thrust and twist tadpole for added stimulation during play. A 3.75-inch circumference and 2-inch length make it the ideal size for internal stimulation while the 5.5-inch insulated tail ensures safety during anal play.

Specifications:

- Total Insertable Length: 150mm / 5.9 inches
- Egg: 2 inches long x 3.75 inches in circumference.
- Tail: 5.5 inches (150mm insertable x 30mm diameter)
- Connection: 2mm
- Weight: 72g
- Materials:
- Egg: Marine-grade aluminium contacts with an acrylic isolator strip.
- Tail: Silicone
- Number of Poles: 2 (bi-polar)

What's included?

- 1x Tadpole Electrode - Soft Tail Electro Egg
- 1x Instruction Booklet (EN/FR/DE/NL/ES/IT)

BDSM Safety

Safety First in BDSM

Consent, communication, and safety are paramount. Our products include safety features like quick-release buckles. Never leave a restrained person unattended.

Start slow, check in often, and always have safety scissors nearby for emergency release.
