Product description

Unleash the full potential of your ElectraStim dual channel stimulator with the ElectraStim Triphase Combiner Cable. This innovative accessory allows you to experiment with an extraordinary range of play, converting your four-accessory setup to a thrilling three-output configuration.
Enhance the intensity and complexity of your sensations by combining the stimulation from two channels into three, opening up a whole new world of possibilities. Whether you’re a seasoned electrical play enthusiast or new to the world of ElectraStim, this cable will elevate your playtime to unprecedented heights.
Made with high-quality materials for durability and safety, the ElectraStim Triphase Combiner Cable is a must-have addition to your collection. It’s compatible with all ElectraStim stimulators and three accessories (or one bipolar and one unipolar) for unlimited combinations.
To use, simply connect the cable to your dual channel stimulator and your accessories of choice. The cable features easy-to-use connections, ensuring a secure and hassle-free experience. The cable is easy to clean and maintain, making it a long-lasting and reliable companion for all your electrical play adventures.
Experiment with different setups, combinations, and intensities to discover what truly excites you. With the ElectraStim Triphase Combiner Cable, the possibilities are endless.

BDSM Safety

Safety First in BDSM

Consent, communication, and safety are paramount. Our products include safety features like quick-release buckles. Never leave a restrained person unattended.

Start slow, check in often, and always have safety scissors nearby for emergency release.
