Product description

With Ferowoman you will provoke, in the opposite sex, an irresistible desire for erotic sexual contact, stimulating all their senses.

Pheromones are biological substances that have the property of activating the anterior lobe of the human being's pituitary gland so that it secretes the hormones necessary to awaken the latent sexual and libidinous stimuli in the perfume receptors, and through smell.

- Use it like a normal perfume, without mixing it with another.
- 20 ML container
