Product description

When you’re looking for a travel-friendly sex machine that can operate on any electric current in the world, the Fetish Fantasy Series International Portable Sex Machine is the perfect choice for instant satisfaction! Unlike bigger and bulkier electric fuck machines, this portable sex simulator easily fits in your suitcase and features a universal power adapter to safely support multi-standard voltages in nearly every country. With a built-in surge protector, the global converter allows you to enjoy powerful and portable plug-in performance anywhere in the world!

Don’t let its size fool you—this is the ultimate portable state-of-the-art sex machine built to perform! At a mere 9.5-inches long and weighing only 3 pounds, this piston-powered sex machine features 4 super-strong suction cups, 2 interchangeable phthalate-free dildos, 2 adjustable velcro foot and hand stirrups, a convenient carrying handle, and a powerful USB-powered plug-in vibrator that doubles as the machine’s controller. Perfect for internal or external stimulation, the super-strong controller vibe is made from body-safe silicone and features separate controls for the vibe’s power and the machine’s intensity.

This compact thrusting unit features a built-in US power cord and includes a universal power adapter that makes the machine compatible in, but not limited to, Europe, UK, China, Japan, Mexico, South America, and Australia. The Sex Machine operates on 100–240V, and by choosing different prong variations on the universal adapter, your portable sex machine will easily adapt to any country’s voltage requirements. You can discretely take the machine with you wherever you go in full confidence, without worrying about power compatibility or portability.

The smooth, rhythmic thrusting of the high-powered piston-driven shaft is programmed to hit the right spot every time! Unlike any other sex machine on the market, the International Portable Sex Machine features a pair of adjustable velcro foot stirrups, allowing the user’s feet to bring the sex machine closer to their body for the most intense, hands-free stimulation ever imagined. But this incredible sex machine isn’t just a fancy footsy-fucker – the versatile device features 4 suction cups and a travel handle that will give users endless pleasure possibilities!

The USB-powered plug-in vibe is a two-in-one accessory that combines external stimulation with precision controls. The cleverly curved vibe doesn’t just vibrate– it doubles as the multi-speed controller for the sex machine’s adjustable thrusting action. Choose a speed on the vibe’s dial that’s right for you and let the machine’s powerful thrusts whisk you away! The unit’s super-strong suction cups stick to nearly any flat surface – floors, tables, chairs, counter tops, walls, or tiles. Use the machine alone or with a partner and let your imagination explore new positions you never thought were possible!

The International Portable Sex Machine comes in a convenient leather travel bag with a lock and Moist Body Lotion Keychain. The kit also includes free samples of Moist Body Lotion and Refresh Toy Cleaner, as well as a free feather tickler and Satin Love Mask.

The International Portable Sex Machine includes two phthalate-free TPR dildos that easily attach to the machine’s threaded pleasure piston shaft. To clean the dildos, simply unscrew the dildos from the steel shaft and gently wash with Refresh Toy Cleaner and warm water. The TPR dildos are phthalate-free, latex-free, and body-safe.

With no assembly required, this high-tech International Portable Sex Machine is ready to rock right out of the box. Simply plug

it in (with or without the included adapter), strap your feet in, choose a speed on the vibe’s dial, and enjoy the most realistic sex machine ever created!
