Product description

Make your nipples hard with pleasure with the Fetish Fantasy Limited Edition Super Nipple Sucker. With just a few strokes, this incredible nipple sucker creates intense pressure that increases blood flow and increases the size and sensitivity of your nipples to unprecedented levels. With each stroke, your nipples and areola will enjoy satisfaction. You and your partner will love it, both for its incredible appearance and for the sensitivity and sensations you will experience. Your nipples will stay hard for hours, making intimate contact more fun than ever.

Place the clear cylinder over your nipple and lower the suction dial until it touches your skin. The soft cylinders feel comfortable against your skin and stay in place when the action begins. Apply ample pressure to the cylinder to ensure it stays firmly on your breasts and twist to activate the suction. Each time you twist, the suction cup will increase the blood flow and draw your nipple into the tube. Once you unscrew and release the pressure, your nipples will still be hard and ready for whatever happens next.

The best part is that this suction device works without the need for an external suction pump. If you want to enjoy the look of your nipples and areolas and the incredible sensations, this suction device is a must-have for fulfilling your fetish fantasies.
