Product description

If you're looking for intense suction without an external pump, the Fetish Fantasy Series Limited Edition Super Sucker Trio is the perfect choice for increasing clitoral and nipple sensitivity. With two powerful nipple suckers and a clear cylindrical sucker, this combo will satisfy your most erogenous zones without a pressure pump.

Place the clear cylinder over your nipple and turn the suction dial down until it touches your skin. The soft cylinders feel great against your skin and stay in place when the action begins. Apply ample pressure to the cylinder to ensure it stays firmly against your body and twist to activate the suction. Each time you twist, the suction cup will increase the blood flow and draw your nipple and clitoris into the tube. Once you unscrew and release the pressure, your nipples and clitoris will still be hard and ready for whatever happens next.

The best part is that this suction device works without the need for an external suction pump. If you want to enjoy the look of your nipples, areolas, and clitoris, along with incredible sensations, this suction device is a must-have for fulfilling your fetish fantasies.

- Suction cup width: 4 cm
