Product description

Take control with the Fetish Submisive adjustable belt doggy harness.

A perfect padded harness with adjustable straps.

Practice the famous doggy position!

The doggy pose can take you to heaven! Ok, it is not the most romantic position we know, but it is the one that allows for greater friction and contact with your partner, something that, ultimately, will translate into unlimited pleasure. Have you ever tried it? This is everything you need to know about her...

If we talk about sex and sexual positions, "doggy style" is without a doubt one of the most popular, especially because it is one of the most daring and one of the ones that provide the most pleasure. Practiced since time immemorial, it is the object of fantasies of both men and women... Do you want to know why it is the favorite position of many? Although there are many more to try...

The technique with the harness

It must be said that this position may not please everyone, especially the most romantic ones. During other positions, like classic missionary, you can look at and kiss your partner, but with doggy style, things get more complicated. In this position, the woman or man must get 'on all fours', and the penetrating man must kneel behind her or him, adjusting his height to that of his hips. Thus, the man has total control over the penetration, speed or rhythm, something that can be very erotic.

The position, as it could not be otherwise, offers very intense sensations: it achieves very deep penetration, allows you to easily reach the G-spot and, depending on the angle, also other sides of the vagina or anus, which It implies unmatched pleasure. At the same time, it gives the man direct access to the clitoris, being able to stimulate it during penetration. If you're a little shy, don't feel intimidated! The doggy style position is also great for getting carried away in the moment, since with no eye contact, you won't have to worry about your facial expressions while having sex, which for many women can be a headache.

The FETISH SUBMISIVE harness facilitates deeper penetration by stimulating the G-spot in the case of female-female penetration or the P-spot in the case of male-male penetration. Increases penetration angles from 90 degrees to 45 degrees.

- Made of material; Neoprene, Nickel-free metal and Vegan leather.

The Fetish Submisive collection is perfect for BDSM, quality and resistance suitable for any game!
