Product description

It is the most famous and best-selling male masturbator in the world, with half a million units sold and 10 years on the market, in addition to being the only product that has a patent to donate sperm in fertilization clinics.

The ideal introduction to the Fleshlight experience, penetrating the soft folds of our patented Real Feel SuperSkin material, and sliding along the durable yet soft TORQUE sleeve, elevates the masturbation experience to an exciting new level of sexual satisfaction without equal.

The interior route of the masturbator adapts perfectly to the penis to achieve a greater sensation of pleasure.

Fleshlight launches the new TORQUE texture, more relief and more disturbing sensation.

- Fleshlight® is 100% safe and very easy to use and clean.

Modeled after the female anatomy and available in light pink, Fleshlight Go is Fleshlight's most compact masturbator in this line, it is the first step towards discovering why more than three million men have chosen Fleshlight products to enjoy the pleasures of masturbation, alone or as a couple.

This unique and patented design includes our TORQUE sleeve

Made to look like an ordinary flashlight, our Fleshlight case is more than just a discreet storage medium, and provides two important additional functions: creating pressure on the sleeve during use and allowing the user to control the amount of suction experienced, by adjusting end cap pressure.

The sleeve can be easily removed for cleaning, and the case design is compatible with any of our Fleshlight sleeves.

These two elements, the TORQUE sleeve and the plastic case, combine to form a device that is more of a tool than a sex toy, providing unparalleled levels of intensity through classic methods to achieve sexual satisfaction without a partner.
