### Product description

YOU RINSE, WE DRY.

Cleaning your Fleshlight is now easier than ever. With a Fleshlight drying rack, you don't have to worry about how to place a clean, damp Fleshlight sleeve to ensure it is dry. A Fleshlight drying rack is an efficient and effective solution for all your standard size Fleshlight sleeve drying needs.

Made of coated aluminum, Hang Dry dimensions: 112 x 260 x 78 (mm)

How to Use the Fleshlight "Hang Dry" Drying Rack

- After cleaning your standard size Fleshlight product, secure the sleeve to the Fleshlight's "Hang Dry" drying rack.
- Hook the drying rack on a secure rod or bar in an area that won't be damaged by water, such as a bathroom towel rack or shower handles. DO NOT place on or near electrical equipment or sources.
- Allow enough time for the cover to drip and air dry. For faster results, place it near a source of airflow.
- Return the sleeve to its case only after it is completely dry.

### Cleaning Guide

#### Cleaning Guide by Material

Silicone: soap & water, boiling, or bleach solution. Glass/Metal: soap & water, boiling, or dishwasher (top rack). TPE/TPR: soap & water only (no boiling). ABS plastic: soap & water only.

Never use silicone lube on silicone toys – use water-based lube instead.
