While the majority of our male customers can enjoy the Quickshot line of products, there are some individuals whose endowment may prevent them from doing so comfortably. A client whose penis in any area is thicker than approximately 5.5” or 14 cm may find the Quickshot too tight or restrictive. Customers should use their best judgment to determine if this Fleshlight toy would be the right size for them; If not, there are a wide variety of full-size Fleshlight toys to choose from. Please note that opened/used toys CANNOT be returned for refunds. Men with larger girth penises can still use the Quickshot sleeve without its casing, but that is left to the discretion of the individual user.
