Product description

FLESHLIGHT TURBO CORE - BLUE ICE - PLEASURE TO THE CORE

The Fleshlight Turbo Core offers multiple layers of internal stimulation explicitly designed to replicate the shuddering sensations of oral sex.

Uniquely designed with our patented multiple suspended entry points, each layer will engage you with various textured sensations.

As you slide in, the Turbo Core's external suspended tips caress you, rubbing their tips gently over your head and shaft with each stroke.

With your member completely submerged, the matching pair of floating inner rings work in unison for a comfortable yet cozy grip.

Finally, as it drills deeper into your core, prepare for a combination of gripping texture and exceptional suction, unlike anything you've ever felt before.

With a non-anatomical hole and a unique texture, the Fleshlight Turbo Core is about to take you to new levels of sexual satisfaction.

This is what you will receive in your Fleshlight Turbo Core
