### Product description

Buckle up and hold on! Automate your fantasies with our universal petting simulator! The Universal Launch is designed to fit the majority of our line of products AND other non-Fleshlight cased strokes!\* Control the length and location of your strokes, as well as the speed. With its innovative touch control system, simply adjust the controls, sit back and enjoy! \*Use of any third-party hardware products in combination with Universal Launch violates the terms of use and warranty.

#### HOW TO USE

Universal Launch is an automated Fleshlight experience for most of your Fleshlight toys! Securely attach your compatible Fleshlight product using the universal ratcheting system. Slide your product through the grippy circular opening. Once in the desired and secure position, use the large latch to tighten the grip. Lift the large latch from its left side to tighten the strap snugly, being careful not to overtighten and possibly damage your Universal Launch or Stroker. Then turn it on and enjoy the many features of the product! Universal Launch's easy-to-use, illuminated rocker switches allow you to adjust between four stroke lengths and variable stroke speeds, moving as fast as 250 strokes per minute. If you want a more concentrated experience, shorten the stroke length and alternate between the three available pleasure zones: base, shaft or tip. The universal smartphone holder on top gives you the option to watch your favorite content while both hands are on the controls. On a full charge, your sessions can last up to 60 minutes, but can also be experienced while plugged into the wall using the Fleshlight's active start mode.
