The explicit design sparks imaginative fantasies. With its prominent glans and suggested veins BIG BOSS borrows from nature like no other FUN FACTORY vibrator. The gently curved silicone shaft fills up users with arousal due to its 4 cm diameter. Impressive as it is, thanks to the FlexiFUN Technology it uniquely adapts to any body form without losing any of its fulfilling pressure. Plus the strong motor evenly distributes the vibrations throughout the entire shaft; it powerfully reaches even the most hidden passion points.

In bright pink, powerful black and a discreet nude BIG BOSS with a total of 12 vibration programs brings a boost to your love life ? whether on a solo tour or with a partner. The ergonomic control unit with the LOOP, a little cutout in the handle, rests perfectly in the users hand, even when using a lot of lubricant.

The index finger is put through the silver ring located in the seductive black handle for a secure hold, then the toy rests in the

palm and the three touch buttons of the PRESS FUN TO PLAY controls can be intuitively controlled by the thumb. Navigation is then easy and comfortable with the + and ? buttons. The red FUN button starts and stops BIG BOSS's amorous discovery tour with just one click.

The powerful motor is set so that more energy is diverted into the strong silicone shaft. The intense vibrations are distributed without losing any drop in strength throughout the entire shaft and right up to the tip of the toy. The shaft vibrates with completely satisfying sensations. A battery level display ensures that BIG BOSS is always ready for action. The QuickSTOP via the FUN button ends any secret adventures in half a second. Plus the key lock means BIG BOSS can leave home, traveling the world discreetly in a handbag or suitcase.
