EAN	**4032498271019**

Product description

From the moment you touch **BOUNCER**, you know you're in for a pleasurable ride. You can feel the gentle movements of the spinning balls inside the toy and let your anticipation build. The thickness of the toy is impressive and the heavy balls are almost silent while moving.

BOUNCER always surprises (in a good way) because no session is exactly the same as another. You can determine the rhythm and movement each time.

WAYS TO PLAY WITH BOUNCER:

- Do you want to penetrate your partner?: Bouncer fits well in a harness. As you push, the three heavy bouncer balls will roll inside it, making the toy move in a natural way. the result? most incredible stimulation for your partner.
- It is in your hands...: Insert the toy and put it inside you with your hand. This simple way of playing is very pleasant and will satisfy you. with each blow.
- Hands-free solo fun!: One of the best things about our bouncer dildo: its ultra-flat base sticks securely to flat surfaces, which is ideal for position changes (hands-free).

Our **BOUNCER** harness turns each of your play ideas into a unique and exciting experience with its intense sensations that stimulate all your hot spots.

WHAT MAKES SPECIAL TO THE BOUNCER?
Three heavy balls bounce and roll inside the Bouncer shaft as you move it, giving you a deeper, more organic sensation than vibration. When you play with this dildo with rumbling balls in Inside, slow, steady motion feels very different from hard, fast motion, and they're both amazing. Use it alone, give it to a partner, or put it on a leash: its slim base It allows you to get closer to your partner during harness play, making it the perfect strap-on dildo.

Another advantage: Bouncer is almost silent and has an extremely electrifying effect, without the need for a motor or batteries.

SOMETIMES I FIND THE VIBRATION OVERWHELMING. WOULD I LIKE IT? THE BOUNCER?
Probably yes! While the vibration is constant, intense, and controlled by a motor, the Bouncer's heavy balls don't move unless you (or your partner, if you are) move. (tying). If you get easily overstimulated, you can control Bouncer's movement to get the amount of feedback that feels comfortable to you. Plus, it's fun that the bouncing movement varies a little with each movement. You will never lose sensitivity during your session!

I LOVE THE VIBRATION. I WILL LOVE THE VIBRATION. THE BOUNCER?
Yes, because it feels amazing. A favorite way to play with this dildo is to place a vibrator against the base, for super vibration! The vibration activates the balls, that rumble in response, for a whole world of fun.

WHAT IS THERE BEHIND THE DESIGN?

Sure, it has an impressive shaft and smooth curves, but the big idea behind our Bouncer strap-on dildo is invisible to the eye: three weighted balls roll inside it with every movement. The feeling it produces is extremely good. Something else that will make you happy. feel good: like all our dildos, Bouncer is not made on the other side of the world, but in Bremen. Made from 100% body-friendly materials and manufactured primarily by hand. Two design details (a red base and a metal logo button) indicate our quality craftsmanship.
