Dont Call Me Miss.
You asked, and we delivered. We took MiSS Bis two powerful, rumbling motors and put them into a design thats long and firm, for size lovers who crave dual stimulation. Need firmer pressure on your clit to get you where you're going? Weve adapted our signature FlexiFUN Technology to make LADY Bi flexible-but-not-too-flexible, so you can enjoy a more intense pressure without sacrificing the comfort of a shaft that adapts to your motion. Plus, the length gives you more options for play, whether that means vibrating the arousal-triggering a-spot or simply having greater mobility.

Adding to the elegant design, LADY Bis loop handle makes switching positions easy, even when your hands are covered in lube. The intuitive raised button controls come with a quick on/off function and a travel lock. Yes, we really have anticipated all of your needs.

22,1 cm and Ø 4,5 cm; 206 g
