- Experience diverse multiple orgasms through selected programs
- With exciting BOOST and COOL DOWN functions

YOUR HIGH-CLASS PRESSURE WAVE VIBRATOR

- The FUN FACTORY MEA pressure wave vibrator gives you the space to develop, free from expectations, rules, and pressure. And unlike a traditional vibrator, the MEA pressure wave vibrator provides a kind of stimulation that can't be expressed in words.

WHAT EXACTLY IS WONDERFUL ABOUT A PRESSURE WAVE VIBRATOR?

- A pressure wave vibrator like the FUN FACTORY MEA works with negative pressure, so it's a kind of clitoral sucker that stimulates your clitoris without touching it. This, in turn, prevents overstimulation, as well as the often dreaded "numbness." Instead, sucking on the pressure wave vibrator creates a completely different type of stimulation than, for example, a classic vibrator, and therefore leads to even more intense and long-lasting orgasms. Plural? Oh yes.

SO THE FUN FACTORY PRESSURE WAVE VIBRATOR CAN ONLY SUCTION?

- Oh no, MEA can do much more! In the Intense Orgasm Program, you succumb to a rapid, inescapable sucking that takes you directly to a liberating orgasm. The Deep Orgasm Program, on the other hand, brings you to particularly profound climaxes such as extensive cunnilingus. In the Edging Program, MEA then takes you to the edge of maximum possible arousal, only to switch to 'cooling down' the next moment. The result is an extra intense and longer-lasting climax, or many. Because with MEA, you'll also experience multiple orgasms.

FUN FACTORY MEA: DIFFERENT FROM ALL THE OTHERS

- Surrender to the sensual pull of the MEA Pressure Wave Vibrator. The rounded, extended opening of our Pressure Wave Vibrator gently encloses every sensation, regardless of shape or size. Plus, the patented 'Magnetic Wave

Technology' within MEA not only ensures near-silent stimulation, but is also extremely versatile, even making multiple orgasms possible.

- Stay still? It doesn't have to be! Even when you're moving, the stimulation of the pressure wave vibrator is uninterrupted. Last but not least, MEA stands for uncompromising enjoyment, is made in Germany, and is made entirely from 100% body-friendly materials.
- Plus, unlike other suction toys, the MEA comes with a sleek and durable charging case. You can charge and store your new favorite toy in it neatly and discreetly until the next time you use it.

WHAT'S BEHIND THE DESIGN?

Discover a design that blurs the lines between the pressure wave vibrator and your body. The enlarged, rounded opening gently encloses each clitoris and channels suction power to the spot. Thanks to its organic shape and soft curves, you can hold MEA relaxed while navigating through the different programs with ease (and with your eyes closed). The three raised buttons facilitate intuitive control.

- Another novelty: after the session, MEA snuggles up in the elegant charging case, hidden from prying eyes, always ready for more sensual excesses.
