FAQ

- **WHAT WHAT MAKES THE SHAPE OF THIS VIBRATING PENIS RING SPECIAL?:** In most vibrating penis rings, the vibrator is placed right above the penis: it's fun for the user, but it's not really Useful if you are trying to hit the clitoris. We designed NÖS with both of you in mind, so the two vibrating extensions are long enough to reach your clitoris and flexible enough to move with you as you play. That means hands-free orgasms during intercourse!
- **HOW DO I WEAR NÖS?** The strong but super flexible silicone can be easily stretched with your fingers (that means NÖS is suits everyone!). Wear your NÖS at the base of the penis, where it is easy to put on and take off for more spontaneous play. Keep the curved extensions facing outwards, where they can hit the labia and clitoris as you move, or use the NÖS in your hand for more direct stimulation. Diamond, schmiamond: this is a ring that makes everyone go weak in the knees.
- **I SEE IT HAS FOUR SPEEDS, BUT WHAT? IS IT A "FLIRTY" FIT?** You're going to love it. The flirt setting is a five-minute cycle of slightly variable vibration that prevents you from getting used to a single speed or pattern.
- **IS THIS VIBRATING PENIS RING SAFE TO USE?** Yes, as long as you keep some safety tips in mind! C-rings work by slowing blood flow out of the penis, which is perfectly safe for short periods and unhealthy for long periods. Only use

this toy for about 20 minutes at a time. Even more important, listen to your body: if it hurts, take it off. Do not wear C-rings if you have a blood or bleeding condition.
