Product description

Extra light and yet sturdy
WE YOUR FEEDBACK

And thats why youll love the updated SHARE LITE double dildo, which offers the ultimate sense of closeness and spontaneous, harness-free play. With this sex toy you can make quick position changes and experience precise stimulation on both sides. Compared to the previous edition SHARE, Fun Factorys original double dildo, SHARE LITE is 22% lighter, making it the worlds first lightweight double dildo. Due to its light weight, SHARE LITE can be held in place with your pelvic floor muscles without a harness. All you have to do is let go and enjoy.

Innovative lightweight core means no slipping 22% lighter than the original The Share Can be held in place by the pelvic floor muscles for 100% harness-free wearing Rebalanced so that the acorn stays upright during the game G-spot tip for the wearer & G- or P-spot tip for the receiver Redesigned based on customer feedback

THE LIGHTEST DOUBLE DILDO
With the SHARE LITE double dildo you will forget the world around you. The ultra-lightweight sex toy scores well during hot role-playing, pegging and more. In addition to feeling closer than ever, you and your partner can enjoy targeted stimulation on both sides, without a harness.

HOW DO I USE A DOUBLE-ENDED DILDO AS SHARE LITE?
The shorter shaft is worn vaginally. Because this toy is 22% lighter than the original SHARE, you can hold and control it with your pelvic floor muscles without any effort and without harness. The curved design means the toy is aimed exactly at your G-spot when you wear it. And if you are the recipient on the side? The longer part will massage your G-spot or prostate.

WHATS THE DIFFERENCE WITH OTHER DOUBLE DILDOS?
A lot! Fun Factory created SHARE LITE in response to customer feedback about other double dildos. Some other toys are made of tough silicone, making them too heavy to use without a harness. Thats why they designed SHARE LITE with a lightweight inner core thats easy to wear. And the receiver tip is longer than other models for hotter, more natural-feeling punches. And this without the point dropping down.

CAN I REALLY USE THIS WITHOUT HARNESS?
But of course! The end of the wearer part is movement resistant, even if you feel wet inside. And the lightweight inner core keeps the end of the receiver from sinking, no matter how vigorously you play. The flexibility yet firm grip allows you to adjust the toy the way you need for the most secure and comfortable fit.

WILL THE TIP NOT LOWER DURING MY PLAYING SESSION?
No! With its balanced design and lightweight inner core, SHARE LITE stays "upright" even in your most adventurous positions. And as good as that perma-erection looks, it feels even better.

SO CAN I SWITCH POSITIONS REALLY QUICKLY WITH THIS DOUBLE DILDO?
Of course, because thats what people want with a double dildo! SHARE LITE scores with a moveable hinge that remains

stable. It offers maximum control and zero sag.

CAN I ALSO HAVE SOLO FUN WITH SHARE LITE?
Ooh yes!. Heres a suggestion: hold the shorter end in your hand and use the long end of your double dildo for precise G-spot massage. You can even use the toy anally for solo FUN.

PROPERTIES
Size: 30 cm and Ø 2.5-4.05 cm
Weight: 331 grams
Material: body safe 100% medical silicone
